VINSKA REGIJA

Subotičko-horgoška vinska regija je deo prostrane panonske nizije koja se prostire između reka Dunava i Tise a ovde pokriva pojas severno od Subotice i Palića. Iskustvom vinogradara i vinara, uz prirodan odabir sorti grožđa koje su najbolje prilagođene lokalnoj klimi i pretežno peščanom terenu – stvorena su vina visokog kvaliteta. U našoj regiji postoji značajan broj vinarija, od manjih porodičnih vinarija i prijatnih vinskih podruma do vinarija svetskog nivoa koje su poznate i van granica naše zemlje.

ISTORIJA PROIZVODNJE VINA

Tokom 300-godišnje istorije proizvodnje vina na peščarama oko Subotice i Palića, najplodniji period u proizvodnji vina je bio od 1880-ih do 1980-ih godina. Danas smo, ovde, svedoci renesanse u proizvodnji vina kroz spoj tradicionalne i savremene tehnologije.

AUTOHTONA VINA

Autohtona vina su sveža, reska, blago kisela, imaju voćne komponente i živahna su. Vina koja najbolje oslikavaju karakter peska su stare sorte vina: belo vino kevedinka i crveno vino kadarka. Uz njih su se očuvale i druge stare sorte autohtonih vina. Danas se, takođe, mogu naći i nove sorte, nove za ovaj vinski region, poput: šardonea, rizlinga, kaberna i merloa. Poslednjih godina, i stare i nove sorte vina subotičko-horgoške peščare osvajaju brojne domaće i međunarodne nagrade i priznanja.

SLAGANJE HRANE I VINA

Najbolji način da se uživa u vinu jeste da ga uparite sa njegovim najboljim saputnikom - lokalnom kuhinjom.

- Jela intenzivnog ukusa zahtevaju vina intenzivnijeg ukusa.
- Kiselija jela zahtevaju kiselija vina.
- Slatka jela treba da prati vino koje je jednako slatko ili slađe.
- Izbegavati taninska vina uz masnu ribu i ljute začine.
- Poslužiti suva i slatka vina kako bi se ublažila ljutina začina.
- Dobro usoljena mesa čine vina mekšim i ublažavaju ukus tanina.
- Reska, kiselkasta bela vina idu dobro uz slana jela, masnu ili prženu hranu.

WINE REGION

Serbian Subotica-Horgoš wine region is a part of the great Pannonian sands between the rivers Danube and Tisa. Here, vineyards cover belt north of Subotica and Palić. The experience of grape growers and winemakers have resulted in the natural selection of grape varieties that proved to possess the best qualities of adaptation to the local climate and dominantly sandy terrain while at the same time capable of producing wines of the highest quality. There are quite some number of wineries, from small family wineries and cosy wine cellars to a world-class estate recognized beyond the borders of the country.

HISTORY OF WINE PRODUCTION

For about 300 years of wine-making history on sands around Subotica and Palić, the best years were from the 1880s to 1980s. Today, we are witnessing a renaissance in winemaking in Subotica sands as a result of mixture of traditional and modern technology applied to winemaking.

LOCAL WINE

Local wines are fresh, crisp, slightly acid with a fruity complex and lively. A true wine that expresses the very sand are old types: white Kevedinka and red Kadarka but they are not the only preserved local old wine types. Today some new wines, new to this wine region, are being introduced such as: Chardonnay, Riesling, Cabernet Sauvignon and Merlot. Both, old and new wines from this wine region, have been winning many national and international prizes and awards.

WINE PAIRING

The great way of enjoying wine is to pair it with its best companion - the local cuisine.

- Intensely flavoured foods need intensely flavoured wines.
- Acidic foods need higher acid wines.
- Sweet foods need to be paired with a wine that is at least as sweet or sweeter.
- Avoid tannin wines with oily fish or hot spice.
- Pair off-dry to sweet wines to help counteract spice heat.
- Well salted meats make red wines taste less tannin and softer.
- Crisp acid whites pair well with salty food, fatty or deep fried foods.

VINARIJA TONKOVIĆ

Na dinama Bačkih Vinograda, prostire se vinograd Vinarije Tonković. To je tip evropskog porodičnog vinograda i vinskog podruma. Pošto se smatra da je budućnost svetskog vinarstva u autentičnim lokalnim vinima, ovde se gaji isključivo jedna sorta grožđa i to autohtona sorta kadarka.

Većina crvenih vina su teška, dok je kadarka laka i pitka i u tome je njena specifičnost. Veruje se da je kadarka u ove krajeve stigla još u XVII veku. Neko vreme je bila rasprostranjena a zatim je zaboravljena. O ovome i o mnogim drugim zanimljivostima domaćini slikovito pričaju svojim posetiocima.

Kadarku Vinarije Tonković serviraju u prestižnim restoranima u Bordou – prestonici svih crvenih vina. Ovde, degustacije se organizuju u seoskoj kući koja se nalazi u samom vinogradu. Po dogovoru, mogu se poslužiti i specijaliteti lokalne kuhinje uz koje će kadarka pokazati svoje najbolje osobine.

TONKOVIĆ WINERY

The vineyard of the Tonković Winery lies on the dunes of Bački Vinogradi. This is European family type vineyard and a wine cellar. Since it is presumed that the future of global winemaking rests in authentic local wines, this winery grows only one grape variety - the indigenous variety of Kadarka. It gives excellent wines.

The majority of red wines are heavy, whereas Kadarka is a light and potable wine that makes it specific and therefore recommended. It is believed that Kadarka appeared in these parts in the 17th century and it was highly dispersed only to be forgotten later on.

The winery hosts tell tales for the visitors of these and other interesting facts in a very vivid manner.

Kadarka is served in prestigious restaurants in Bordeaux - the capital of all red wines. Wine-tasting is organized in the vineyard's country house. The best features of Kadarka are brought about by the specialities from the local cuisine.

Kupaža DiShiraz kuve je vino tamnoljubičaste boje, intenzivnog ukusa i mirisa sa bogatom teksturom. U mirisima ovog vina se oseća zrelo šumsko voće sa zaokruženim začinskim mirisima bibera i lovorovog lista što vinu daje impulsivnost.

RECOMMENDATION

The blend DiShiraz Cuveé has dark purple colour, an intensive aroma and fragrance, with a rich texture. The fragrance of this wine gives the impression of ripe berries with encircled spicy scents of pepper and bay leaf, attributing impulsiveness to the wine.

VINSKI SALAŠ ČUVARDIĆ

Vinski salaš Čuvardić se nalazi u starom porodičnom vinogradu „na salašu“. Osim pudarske kuće, tu se nalazi stari vinski podrum iz 1928. godine kao i novi vinski podrum.

Sadašnji vlasnici su treća generacija vinara što svedoči o znanju i ljubavi kojima se ovde pravi vino. Ovde je reč je o raskošnoj vinskoj karti starih autohtonih i novijih sorti vina. Vina Čuvardić su pobrala brojne medalje i nagrade.

Degustacije se organizuju u rustičnoj pudarskoj kući ili u bašti. Za najavljene grupe se organizuje degustacija vina i pripremaju se specijalitete stare domaće kuhinje a po dogovoru goste zabavlja tamburaški orkestar.

ČUVARDIĆ WINE FARM-HOUSE

Čuvardic Wine Farm-house is located in the old family-owned vineyard. Aside from the vineyard guard's house and an old wine cellar from 1928, there is a new wine-cellar.

The present owners belong to the third generation of winemakers, certifying that love and skills are used to make wine. Here, we speak of a luxurious wine card comprising old indigenous to new wine varieties. The Čuvardić wines have won numerous medals and prizes.

Wine tasting is organized in a rustic vineyard guard's house or in the garden. Specialities of the traditional local cuisine are served for the groups that have made prior arrangements. There is a possibility to engage a tamburitza orchestra to entertain the guests, too.
